### Introduction

This program is at the intersection of 3 core engineering branches: computer engineering; information technology; electronics and communication engineering. It aims for an integrated communication system to meet contemporary communication requirements. In today's industry 4.0 era and advancements in emerging technologies, information Communication & Technology (ICT) plays a significant role. Industry 4.0 without ICT is devoid of its soul. It covers the strengthening, retrieving, manipulating, transmitting, and receiving of the information vital to major sectors like infrastructure, defense, healthcare, and energy sectors amongst others.

Note: Options for Extra Tracks available in Minor, Micro and Nano Tracks  
Click Here (<https://www.adaniuni.ac.in/extratrails/>)

## Facilities

Applied Physics Lab

Electronics Device Lab

Analog & Digital Communication

Digital Electronics Lab

Signals & Systems Lab

IoT & Sensors Lab

Analog Electronics Lab

Embedded System Lab

Computer Programming Labs

AI-ML Lab

Microprocessor & Microcontroller Lab

Data Communication & Networking Lab

Operating System Lab

Design Enginerring Lab

## Wireless Communication Lab

## Embedded System Lab

## Eligibility Criteria

- 75% of the total intake will be admitted as per the eligibility criteria prescribed by ACPC. For more information please visit: <https://acpc.gujarat.gov.in/> (<https://acpc.gujarat.gov.in/>)
- 10% of the total intake will be from candidates qualified in JEE (Main) – 2026 on all India basis.
- 15% of the total intake will be admitted from NRI / NRI-sponsored candidates based on JEE (Main) – 2026. Notarized copy of the affidavit sworn – in by the NRI sponsor to be submitted. Download Affidavit Format (<https://www.adaniuni.ac.in/wp-content/uploads/2023/05/NRI-Affidavit-AU.pdf>). Genuine NRI candidates are exempted from JEE examinations.
