FROM THE CHAIRMAN'S DESK

With many Indians evidently occupying influential positions globally in business, research, space, design, fashion, technology and more, the world is unmistakably acknowledging India's potential, as much as counting on it. This also bears testimony to the fact that India's education system has consistently performed better than that of many countries. On one hand, the finest educational institutions like IITs, IIMs, AIMS are producing world class professionals. On the other hand, India has also successfully reached out to the rural and suburban section and significantly improved gender equality in education besides boosting literacy rate itself, making people life-long learners. This has resulted in students, even from India's interior districts, rising to commanding heights in various arenas.

With newer proposed changes in Education as a sector, and IT backing and enabling its delivery and reach, we look forward to not only better serve Indian students, but also to attract and groom talent from around the world. All stakeholders, including academia students, industries, and government will have to play critical roles in making institutions capable of taking the next major leap forward and build an independent education ecosystem.

We, at three of our world class MET BKC campuses in Mumbai and Nashik, and at our International School - MET Rishikul Vidyalyaya, are ceaselessly endeavoring to provide the best infrastructure, human capital, processes and values, so that tomorrow's India will outperform the India of yesteryears. We at MET believe that India's glorious period is not behind us but ahead of us, as a matter of fact we all are carving it out today.

ABOUT MMS

The Masters in Management Studies (MMS) is a two year full-time Degree programme affiliated to the University of Mumbai and approved by AICTE and DTE. The selection procedure consists of a process of an Entrance Test (As mandated by AICTE/ DTE/ Hon. Supreme Court), a Group Discussion (GD) and a Personal Interview (PI) for all eligible candidates who are graduates from UGC approved institutes. The Entrance Exam is a multiple-choice objective test evaluating the aptitude in verbal ability, quantitative aptitude, logic, visual reasoning, reading comprehension and data interpretation.

The course is rigorous and exhaustive. The programme is conducted on a semester basis with four semesters spread over two academic years. The duration of each semester is around 15 working weeks. The first year lays the foundation in the fundamentals of management. There is summer internship of two months after the first two semesters. The second year offers specialization in a particular discipline – Marketing, Finance, Operations, Human Resources and Systems.

In the last semester students submit three projects: 1) General Management 2) Functional Specialisation 3) Social Relevance. The pedagogy goes beyond the text-books. It includes case studies, simulation games, workshops, industrial visits, certification courses, guest lectures and live projects to develop and sharpen knowledge, skills and attitudes that prepare the students to meet the global corporate challenges.

DIRECTOR'S SPEAK

Dear Corporate Fraternity,

Recruiting fresh talent with the right mix of 'company-candidate fit', appropriate attitudinal skills and functional knowledge has been one of the foremost challenges for any organization, more so in the recent turbulent times.

MET Institute of Management, with its 'state of the art' MBA (MMS) program, affiliated to University of Mumbai and approved by AICTE, has been offering a fresh talent pool for more than three decades to the corporate houses of the country.

We are pleased to present our latest batch of management students under various specializations who are ready and eager to be a part of your esteemed organizations. MET Institute of Management has been stepping up in sync with the shift to the new BANI world, a transition from the VUCA world.

BANI stands for Brittle, Anxious, Non-Linear and Incomprehensible. In this new world setting, aligning the expectations and delivery of various stakeholders is challenging and we, as established higher education institutions are facing this challenge head on.

During their two year stint with us, the management students are groomed and acculturated to hone their attitude, skill set, knowledge as well as adaptability in this fluid world.

The rigorous exposure to case studies, guest sessions, alumni interactions, simulation games, data visualization, research assignments, live projects apart from classroom teaching opens their minds to problem solving and decision making from various perspectives.

Our students have shown passion and compassion in starting their own community initiatives like "Adhyapan", to mentor school children in municipal schools and "Consulting COE" to help nonprofits solve their problems.

This brochure will help you ascertain the preliminary requirements for your organization and our energetic placement team will take you through the remaining process.

With a rising median salary year on year and a qualitative growth in job profiles and job descriptions every year, we look forward to your unstinted support in placing our students not for an entry job but for a scalable career.

With MET alumni adorning senior positions in most of the corporate houses and businesses, our value system and skill sets are tried and tested. However, we are inclined to not sit on our past laurels but to keep leaning in to stay relevant and respected each day.

We would love to build new relationships and participate in this ongoing "Corporate Satsang" in India Inc.

Hope to see your presence in our campus and forging a meaning association ahead.
