From the Desk of
The Vice-Chancellor

Prof. Rajesh Singh
Vice-Chancellor
Purnea University, Purnia
Bihar, India

I have been associated with the Purnea University as the Founder Vice-Chancellor and accept this responsibility of leading the institution to its glory. The entire region of Purnea ranks dismally low in terms of several indices of development, and education, but one is struck by the fact that the potential and talent of students here is by no means lesser than those studying in universities located elsewhere. An environment of meaningful interaction and dialogue is to be created between the teachers and the learner, so that an atmosphere of academic excellence nourishes the pool of untapped talent of this region. Purnea University has been designed, governed and committed to reproduce its responsible representatives to the society who are not only the assemblers of talent but also are the unmatched idea factories where the passion, creativity and idealism of great minds can be applied for the problem solving for societal and economical well beings.

Purnea University has been on the path of delivering quality education by developing the young human resources on the foundation of ethical and moral values, while boosting their leadership qualities, research culture and innovative skills. The main objective of the University is to provide higher education of global standards and hence, all the programs are designed to meet international standards. Purnea University has signed MoU with Youth Lab Colorado, USA and other Foreign Universities which are kept as the benchmark so as to provide the international standards to our students within India.

The programs offered by Purnea University also provide the Choice Based Credit System (CBCS) with outcome-based approach. The flexibility in the curriculum has been designed with industry-specific goals in mind and the educator enjoys complete freedom to appropriate the syllabus by incorporating the latest knowledge and stimulating the creative minds of the students. Highly experienced and qualified faculty members, continuously engaged in the maintenance and enhancement of student-centric learning environment through innovative pedagogy, are the backbone of the University. The evaluation mechanism employs continuous assessment with grade point averages through CBCS system as well as Annual System. We believe, sincerely, that it will meet the aspirations of all stakeholders — students, parents and the employers of the graduates and postgraduates of University.

Purnea University is trying to develop a good campus promoting the energy and environment sustenance by creating a clean and green campus. Our University is growing as a centre of multi-disciplinary education that offers a wide range of academic programs starting from Graduation, Post-Graduation and Ph.D. Research triggered learning with the practical knowledge encapsulated with the flexible and lifelong education opportunities are the ulterior motives of our University.

ABOUT
THE UNIVERSITY LOGO

The logo of Purnea University contains the inherent culture of Purnea and the motto of the University. Purnea derives its name from the leaves of a plant 'Purain' which rises above water bodies symbolizing detachment from the material world, and the spiritual radiance which stands out. Besides the 'Purain' leaves, the fishes also feature as auspicious symbols of the 'Mithila' region (which marks the culture of this area). They denote the struggle for Man's true understanding of the 'Self and the achievement of the divinity of 'True knowledge'. Derived from the Upanishad, the motto of the University is ' ऋते ज्ञानान्न मुक्तिः ' As a force that truly liberates knowledge or ' ज्ञान ' lights up the deepest corner of Man's soul propelling him to transcend his microcosmic existence and soar into higher realms of selfless and humble service to mankind. Thus, the logo of Purnea University features all that True Education entails.

Vision

Purnia University aspires to be globally recognized as a centre of excellence for innovation, research, entrepreneurship and disseminating knowledge by providing unparalleled educational opportunities for the learner community especially for those coming from the lower socio- economic strata of society seeking quality education.

Mission

- Providing world class infrastructure, renowned academicians and an ideal environment for Research, Innovation, Consultancy and Entrepreneurship.

- To collaborate locally and globally with colleges, universities, research institutions, industry associations, professional associations and community organizations, in order to conceptualize, design and develop specific educational training, exchange, mentoring and research programs for mutual empowerment and development.

- Engaging students as learners and groom them as professional leaders in an intellectually challenging and contemporary diverse environment.

- Creating a scientific, transparent and impartial Examination/ Evaluation System to ensure an ideal certification.

- Establishing strategic relationship with leading National & International corporate bodies and universities for academic as well as research collaborations.

- Contributing towards creation of healthy, vibrant and sustainable society by involving the students in community service, health and hygiene awareness, sports, cultural activities and environmental protection.

- To work toward bridging rural-urban gaps and encourage village self-sufficiency and enterprise through empowerment and community development initiatives.
