★★★★★ a month ago

Hello everyone,

I'm Yashodha

I have completed my Masters in Biotechnology.

As we all know because of this pandemic we are not able to decide what steps to take in future.

When I was thinking to look my career in very prominent domain, Clinical Research, I came across CLRI from a very good friend of mine .

When i got to know about CLRI i felt so fortunate for finding the right place at the right time .

After joining the course i realised that i have taken the best decision of my life.

The faculty is so strong, supportive and encouraging .

They make sure to give good knowledge and improve our skills .

Each and every student is given attention to improve their skills and qualified enough to face the competitive world .

I am so happy to be a part of Institute . Thanks to CLRI Team.

It has been 3 months since I joined Pg diploma at CLRI. So far, I have gained a lot of knowledge regarding Clinical research. Each module is planned very systematically and the sessions are very interactive. Non technical sessions help us to get trained for aptitude Test, interview based questions and logical reasoning. Trainers and the technical staffs here are very helpful and provide us with all the information we need immediately. I would definitely recommend CLRI if someone is planning to start their career in Clinical Research.

Hi everyone

This is Sirisha Gadi. I have completed my bachelor degree in Dental science from Andhrapradesh. I have interest in clinical research so I search for which Institute offers certificate course in clinical research so I came across with clini launch Institute bangalore which is google top rated. I call them to query course details and they explain me each very detail manner with very patiently and then joined in demo session and which inspired me to join the course with any doubt. Mentors are very friendly in nature they give attention to each every student and they clarify their doubt with patiently. I am happy to join in CLRI team

Thank you

Myself Arthi, I completed BPHARMA in 2021. After completion of My Degree I was just searching for the Online Clinical Research Certification Course. I found One of the Best Institute CLRI (Clini Launch Research Institute) which gave me very good Career. I am really Proud to be a Part of CLRI. Gorgeous Trainee's, Amazing Teaching and Supportive and Fabulous Team Members. I am Lucky that I got opportunity to Join CLRI Institute. I started My Journey with CLRI 4 months ago. Now, I am in good Position as Drug Associate in IQVIA. It's one of the Top most MNC Company. I Thank to Mr. Prashant Sir who guided and suggested me to Join CLRI. And I Thank to Dr. Karuna who is Best Trainee. Mr. Prashant and Dr. Karuna are Most Supportive persons I ever met before. With their Support and guidance Today I am in good Position in my Life. I Recommend to others also to Join CLRI Institute so that they can also make their Career. This is Golden Opportunity to be a Part of CLRI. HEARTY THANK TO CLRI TEAM MEMBERS TO SUPPORT ME AND HELP ME ALL THE TIME.

Hello everyone,
This is SriNithya from Coimbatore. I joined CLRI institute for my advance diploma course. I'm really happy that I got placed in IQVIA with a great package. Being a part of such a big CRO is a dream. And now my dream has become true with the only support of CLRI and team. I personally thank Prashanth sir, Vandhana mam, Apeksha mam, Karuna mam and Archana mam for being my support through out this process only because of their support and guidance I have reached a greater height in my career.

I strongly recommend CLRI BANGALORE to those people who wanted to start their career in Clinical Research.

Hello everyone..
To the people out there, 'confused' whether to join the institute or not.. i would say go for it.. Join this institute Firstly because the teaching (even though online) is very much interesting, interactive and professional. The staff is very helpful and they value each student. They will patiently clarify each and every doubt of yours. They teach everything.. starting from self introduction, resume prep, email writing etc. to technical things and concepts about clinical research. As far as the placement is concerned.. they will 100% support you from their side to crack it!
So Go for it!!
All the best guys!

A great place to learn and up skill yourself in the field of clinical research. The CLRI staff and teachers are extremely supportive and encouraging. The knowledge you'll gain here will be helpful for your future aspirations. Alongside the theoretical parts of CR, the staff will focus on your soft skill development too. So it's a great place to learn from. The platform for Placement assistance is also provided by the Institute, just one has to give their best! !

CLRI is a good platform to get started for the courses like CLINICAL RESEARCH, PHARMACOVIGILANCE, CLINICAL DATA MANAGEMENT, MEDICAL WRITING AND REGULATORY AFFAIRS.
The trainers are very good at explaining things and they are very friendly too.
I really enjoyed both technical and non-technical sessions.
If you're really confused to choose the institute you can undoubtedly choose CLRI

Thanks
