"The interdisciplinary approach at JSAA has transformed my understanding of design, allowing me to see it as a dynamic and connected practice rather than a standalone field. This has driven me to look at real-world complexities in a way that is meaningful and context-driven."

Meenakshi V

Student

Major in Interior Environments Jindal Pathway
& Minor in Business Studies

"What if you were in a learning environment that not only taught you to practice as a designer from day one, but also ensures that you were able to think about interiors from a critical perspective all the while you built up real work experience? Our programme is distinct because it does precisely that; you are taught by globally-trained faculty and industry mentors, so that you are always ahead."
