**Prof. N. Altaf Ahmed**  
DIRECTOR

## MEASI TRUST

MEASI (Muslim Educational Association of Southern India), under the Societies Act XXI of 1860, is one of the oldest minority educational institutions having a multilevel educational system ranging from primary schooling to post graduate studies & research covering several fields of studies. It also has a sound financial resource base.

The association is backed by a democratic and participative management and is under the leadership of enlightened and eminent individuals drawn from educational, industrial, and other walks of life

The association was primarily started with the avowed purpose of integrating the Muslim community which was educationally backward, in the national stream by giving them the benefit of much needed education and promoting, in particular, the emancipation of women in the community.

## PROFILE

MEASI ACADEMY OF ARCHITECTURE was established in the year 1999 within the New College Campus completing 22 years now in the heart of Chennai city. The academy has the approval of the Council of Architecture, New Delhi. and is affiliated to Anna University, Chennai.

The institute is headed by Prof. N. Altaf Ahmed, Director, with his team of highly qualified and experienced faculty from across India and abroad. The institute is collaborating with Westminster University, London, U.K. on summer fabrication competition and in Latitude project are from Columbia, Italy, Maldives, UK and Brazil in the climate change forum for student and faculty interaction.

The institute exudes an atmosphere of learning and also trains the students to be professionals with confidence through additional inputs in discipline and communication skills. It has thus established a reputation for producing professionals with all round qualities. Our students have been placed in reputed firms in India and abroad, and have also been associated with universities abroad for higher studies.

## THE DISCIPLINE OF ARCHITECTURE

Architecture is the discipline dealing with the understanding of design and structures of built forms with a profound layering of aesthetics and integration of services. This profession involves creative thinking and great technical skills embedded with the understanding of social fabric structure, environment, history and culture situated in the given context.

An architect is socially responsible to develop a framework for the society both theoretically and practically communicating and interacting with people. In the current milieu, architecture has progressed through technological advancements and architects are also addressing larger issues related to energy and environment leading to green and smart
