Inspiration

All religions have saved a number of souls but none yet has been able to spiritualise mankind. For that there is needed not just and creed, but a sustained and all-comprehending effort at spiritual self-cultivation.

— Sri Aurobindo Ghosh

Dr. Bharti Prashar
Chairperson

Chairperson's Desk

India is on a cusp of a demographic dividend and the energy of our young citizens can propel the country into the forefront of world of 21st century. However, I am confident that this energy is channelised and harnessed by Nation Building and Service of Society. The role of technical education plays a very critical & contributory role. Though the foundation of the young person is laid at school, however the edifice of the building, in the form of technical character & competence is further developed & completed during the period of higher education. Hence, at MAISM Jaipur, our focus will not only be on developing competence of the students in the building their career but also on developing a service orientation through value based education.

I welcome all the parents & students, who have opted MAISM Jaipur and have come forward to take up higher studies at Mahatma Jyoti Bhatt Institute of Science & Management, Jaipur.

Minerva you all to meet!

“Education is for improving the lives of others and for leaving your community and world better than you found it.”

Dr. Bharti Prashar
Director

Director's Desk

On what you can, with what you have, for where you are. - Theodore Roosevelt

Competing in an era of digital technology, one needs to be a master of integrating knowledge with the sphere of learning and implementation. MAISM Jaipur Institute of Science and Management believes in providing a comprehensive learning experience to students which will make education not only an integral part of life but a way of life itself. Our pedagogy (which provides quality and practical education to the young minds) which will make them more competent to face the future challenges.

We aim to develop a well-rounded personality by making them imbibe the ethical and spiritual values. I am sure that with professional competence, hard work and result oriented approach, our students will prove to be an asset to the industry and the society at large.

“True education must correspond to the surrounding circumstances or it is not a healthy growth.”

CLASSROOMS FOR CORPORATE

Internships

Internships provide students with valuable opportunities for growth through the shadowing of mentors, attendance at meetings, and actual performance of duties.

Placements

The Training & Placement Cell endeavors to provide career planning and job seeking assistance to students. It is a preferred campus for many organizations to recruit the fresh talent nurtured at the college. In the journey towards excellence, many milestones have been set by the Department of Placements. The excellent infrastructure facilitates different activities of placements like pre-placement talks, written tests, group discussions, and interviews as per the requirements of the organization. We offer 100% placement assistance. Students have no trouble finding coveted positions in reputed corporate and business houses. Renowned companies visit the campus every year offering an excellent salary package at par with national standards.

Industrial Visits

Industrial visit has its own importance in a career of a student who is pursuing a professional degree. It is considered as a part of college curriculum. Objectives of industrial visit is to provide students an insight regarding internal working of companies.

With an aim to go beyond academics, industrial visit provides students a practical perspective. It provides students with an opportunity to learn practically through interaction, working methods and employment practices. It gives them exposure to current work practices as opposed to possibly theoretical knowledge being taught at college. Industrial visits provide an excellent opportunity to interact with industries and know more about industrial environment. Industrial visits are arranged by colleges to students with an objective of providing students functional opportunity in different sectors like IT, Manufacturing and services, finance and marketing. Industrial visit helps to combine theoretical knowledge with industrial knowledge. Industrial realities are opened to the students through industrial visits.
