

Where Beautiful Minds Meet

“Jio Institute, a multi-disciplinary higher education institute set up as a philanthropic initiative by Reliance Industries Ltd. and Reliance Foundation, is dedicated to the pursuit of excellence.”

Smt. Nita Ambani,

Founder Chairperson

(Reliance Foundation Institution of Education & Research, India)

JIO INSTITUTE VISION

Our founders Smt. Nita Ambani, Founder Chairperson, Reliance Foundation and Shri Mukesh Ambani, Chairman & Managing Director, Reliance Industries Limited firmly believe in the power of the youth to transform India.

It is this belief that is instrumental in conceptualising and setting up Jio Institute.

Jio Institute aims to:

- Be an exemplary Indian academic institution with international reputation.
- Build a vibrant ecosystem for research, innovation and entrepreneurship.
- Be India's test bed for frontier research and invention of future technologies.
- Prepare the next generation of leaders and entrepreneurs through holistic development.
- Significantly contribute to the advancement of society.
- Solve India's problems and solve them fast.
- Provide a lifelong learning experience.

JIO INSTITUTE PROGRAMMES AND RESEARCH FOCUS

1. Artificial Intelligence & Data Science

The Post Graduate Programme in Artificial Intelligence & Data Science (AI & DS) is focused on providing a solid academic foundation in the core concepts of artificial intelligence and data science along with a deep understanding of their applications to develop professionals that are ahead of the curve in the rapidly changing eco-system of the technology industry.

The programme aims to instill theoretical capabilities and provide the know-how to create practical solutions for enterprise and society.

2. Digital Media & Marketing Communications

The Post Graduate Programme in Digital Media & Marketing Communications (DM & MC) features strategic approach through which organisations drive performance by engaging, serving and communicating with consumer and their constituents. The programme will help students acquire knowledge on how to manage customer experience in the digital age by conducting innovative research in the digital media space. The student will also develop deep understanding of the functioning of the media industry.

3. Sports Management

The Post Graduate Programme in Sports Management has been established to strengthen the rapidly growing sport industry by producing highly skilled professionals. The programme is focused on providing a solid academic foundation and immersive experience in the core concepts of sports management. Students will also acquire a deep understanding of practical applications through a robust internship programme in the sport industry.

JIO INSTITUTE UPCOMING PROGRAMMES

1. Mass Communication and Journalism
2. Fintech
3. New Energy, Science and Technology

RESEARCH AREAS

1. Artificial Intelligence & Data Science
2. Life Sciences
3. New Energy
4. New and Critical Material

CAREER SERVICES

From the time they arrive on campus till the day they graduate, our students will go through a comprehensive Career Roadmap Discovery and Preparation process to help them succeed in their professional life. Our career and industry experts will mentor and prepare our students through the following phases spread across the academic calendar

The Centre for Career Development provides:

- One on One Career Mapping Analysis:
- Soft- Skills Training and Personality Development Programme
- Technical Training
- Guest Lectures with Industry Stalwarts
- Corporate Visits

RESEARCH AND INNOVATION

Our research agenda is aimed to impact society by solving problems of national and global relevance. The Institute also aims to enable development of frontier technologies such as artificial intelligence, digital media, etc, through its interdisciplinary research set-up, vibrant entrepreneurship ecosystem, and a culture of innovation.

Centre of AI for ALL

At the Centre of AI for All, we will collaborate with different stakeholders to develop research, development programmes and training and deployment platforms of a large number of India-centric AI capabilities. All research activities will be planned around global and national priorities as well as emerging trends around the world.

| • Production Control Lab | • Robotics Lab |
| • Audio Editing Bay | • AR/VR Lab |
| • VO Foley Room | • Computer Vision Lab |

EXECUTIVE EDUCATION

Jio Institute's Executive Education initiative offers carefully curated programmes that cater to current needs with an eye on the future.

STUDY ABROAD MODULE

As technological advances make the world a smaller place, Jio Institute is committed to equipping students with skills and experiences required to succeed in the global environment. Every student will have the opportunity to experience a Study Abroad Module that shall include an academic module, industry immersion & cultural understanding.

As a part of this module in quarter 3, students will travel to study on campus at a partner university. Students will have the ability to choose among multiple options for their global experience, each one designed to immerse students in a vibrant cross-cultural environment to showcase the diversities and complexities of the modern world.

INTERNATIONAL COLLABORATION

Partnerships and Collaborations at Jio Institute shall aim to:

- Foster exchange of ideas and scholars across national boundaries.
- Build long-term relationships with global researchers, educators and scholars.
- Participate in joint research projects with scholars and institutions across the globe.
- Build diversity in faculty and student body and develop cross-cultural awareness and collaboration.
- Encourage student and faculty exchange programmes with top educational and research institutes.
- Integrate international and Indian best practices in education and research for addressing global and national challenges.
- Inculcate a culture of collaboration and excellence.

CAMPUS AND STUDENT LIFE

Campus and Student Life

Learning at Jio Institute goes beyond academics. The Institute believes in the holistic development of students by providing a vibrant and multi-faceted environment conducive to personal and professional growth and learning.

Campus

Set in a serene environment overlooking the sea, our 52-acre digitally-enabled campus in Ulwe, Navi Mumbai, India harmoniously combines nature and state-of-the-art infrastructure.

Students Clubs

The Student Advisory Council (SAC) at Jio Institute represents student interests in academics, sports, cultural and other affairs. The council acts as an umbrella body for all the clubs & committees, ensuring their smooth working. They will also act as a link between the students and management.

Sports and Recreation

Beyond the classroom, students have several sporting avenues to explore, participate and stay fit. In addition, the gymnasium within the campus is a state-of-the-art fitness centre with high-performance equipment and attached changing/shower rooms.

Student Residence

Jio Institute provides residential accommodation to students within the campus. Student housing features double-occupancy, air-conditioned, well-furnished rooms.

Health and Well-Being

Student's health and wellness are critical to Jio Institute, and we are committed to supporting their needs. The campus has a functional dispensary with access to a registered medical practitioner. In-person counselling facilities are available to address issues related to mental health & emotional well-being. The Institute has partnered with reputed hospitals near the campus to take care of medical emergencies.

A futuristic campus is envisaged in upcoming Dronagiri Node of Navi Mumbai.

STATE-OF-THE-ART CAMPUS

PROGRAMME HIGHLIGHTS
